IN ONE LINE

Loyal to the core once she trusts you. Earn it with steady, plain reassurance.

HOW SHE LOVES

By being steady, loyal and there when it counts.

SHE FEELS LOVED WHEN

There's steady consistency — and plain words that all is well.

SHE OPENS UP WHEN

Trust has been proven, steadily, over time.

UNDER STRESS

She imagines the worst and tests commitment. Underneath: the fear of being left without support.

IN YOUR CONSULTATION

Be on time and do exactly what you say. Walk her through your process step by step. Her careful questions are how she builds trust — answer them plainly.

Good questions to ask her

“What does a partner who's there for you look like, day to day?”

“What has helped you trust someone in the past?”

SHE MAY OVERLOOK

A calm, steady match who doesn't sell himself at the first meeting. Encourage a second date before she decides.

HER BLIND SPOT · TYPE 8 · THE CHALLENGER

A direct, strong partner may feel like too much at first. They feel loved through straight talk, and a partner who stays steady.
